

## Windows 7 users with Neuropuzzles

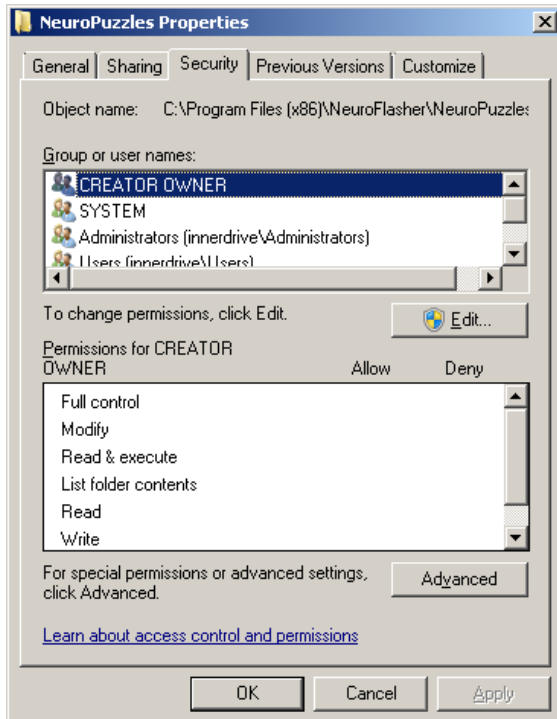

Due to the default installation of Windows 7 the user rights need to be adjusted to full control.

Please find the steps below:

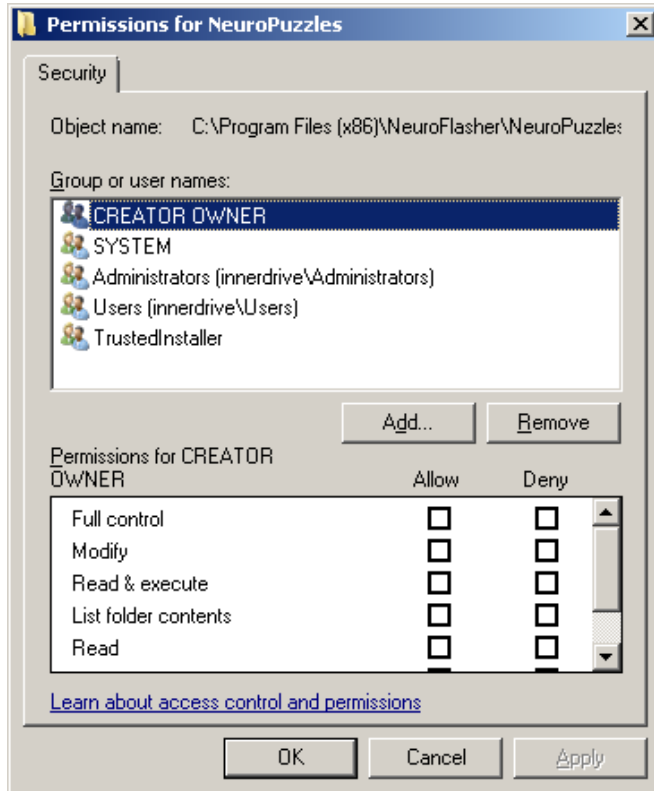

- Navigate to C:\Program Files (x86)\NeuroFlasher (the folder where Neuropuzzles is installed)
- right-click on properties of the NeuroPuzzles folder:

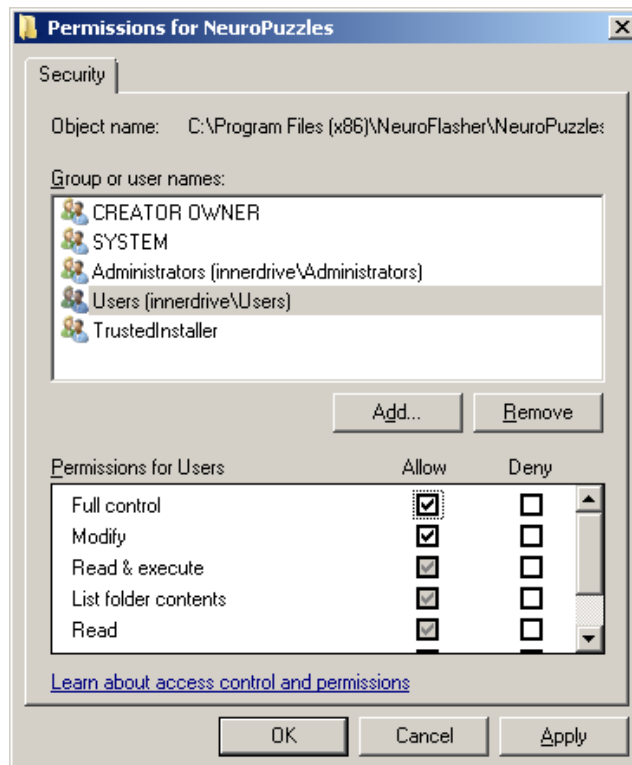

- Click on the tab Security:

- Click on Edit:

- Select Users in the “Group or user names-box” and select Full control -> ‘allow’ in the “Permission for users-box”

- Click OK until all boxes are closed
